## 2019 GHIBLI S Q4 AWD

that has been tested at an impact speed of \* mph and a rear bumper that has been tested at an impact speed of \* mph and has sustained no damage to the vehicle's body and minimal damage to the bumper and attachment hardware. Minimal damage to the bumpers means damage that can be repaired with the use of common repair materials and without replacing any parts. The stronger the bumper, the less likely the car will require repair after a low-speed collision. However, this vehicle is equipped with a bumper system, that, under Federal burnper standard test conditions and procedures, can withstand a frontal impact speed of 2.5 mph and a rear impact speed of 2.5 mph with no more damage than allowed by the Federal bumper standard, \*Not tested to specifics of New York state law.

This vehicle is equipped with a front bumper

This label has been affixed to this vehicle pursuant to the requirements of U.S.C. 15§1231 et seq., which prohibits its removal or alteration prior to delivery to the ultimate purchaser.

Side

EPA **Fuel Economy and Environment** DOT MPG 16 24 combined city/hwy city highway 5.3 gallons per 100 miles \$0 Annual fuel COSt 3 1 \$2,350

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 26 MPG and costs \$7,000 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$2.80 per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle omissions are a significant cause of climate change and smog.
